

Gerald (Gee) Corder

Professional Summary:

Gerald (Gee) Corder is an accomplished ERP implementation engagement/project manager, application consultant, and risk and release manager with over 30 years of diverse industry experience. His extensive career has honed a versatile skill set in various implementation methodologies, including GCC, SOX, Six Sigma, Agile, and Waterfall. Gee excels in managing ERP projects and applications across numerous sectors, showcasing exceptional problem-solving abilities and effective communication with both technical and non-technical stakeholders.

Expertise:

Gerald has an in-depth understanding of multiple ERP packages and best practices, covering general accounting, accounts payable, accounts receivable, cost accounting, credit and debt management, order processing, purchasing, customer relations, inventory management, manufacturing, distribution, logistics, and integration of third-party applications (API's) and EDI. His proficiency in conducting risk assessments ensures project compliance with corporate strategies.

Industry Experience:

Throughout his career, Gerald has led ERP project engagements across diverse industries, including food and beverage, medical, aircraft, dental, yacht, off-road racing, automotive, ceramic tile, high-pressure pipelines, oil and gas, equity investment, and lighting. His extensive experience encompasses Oracle World - One World, Oracle NetSuite, Oracle JDE, INFOR's BPCS v3.0 - BPCS LX 8.4, MAPICS XA, PRMS, Microsoft Navision, and MOM.

Professional Experience:

1. Priceless Plus Corporation: 2011 to Corrent:

SSA – INFOR Highlights

- Over the past 30 years, I have successfully implemented various versions of BPCS (Business Planning and Control System), from V3.0 to the latest LX 8.4. My extensive experience spans a multitude of industries, where I have provided principal support and consulting services for over 25 years. I have worked with a diverse range of sectors, including automotive, food and bakery, medical devices, chemical manufacturing, and oil and gas

Gerald (Gee) Corder

pipelines, ensuring seamless ERP integration and optimization for each unique business environment.

- Additionally, I have served as a CEA (Configurable Enterprises Accounting) financial consultant since BPCS version 6.0. My expertise in financial consulting includes a notable engagement as the primary financial help desk consultant during the period when INFOR was known as SSA Global Technologies. In this role, I was responsible for advising on financial modules, troubleshooting issues, and providing comprehensive support to organizations across various industries. My extensive background in BPCS and financial consulting has equipped me with a deep understanding of ERP systems and financial management, enabling me to deliver effective solutions tailored to the specific needs of each client.

NETSUITE

- Successfully migrated three automotive aftermarket divisions from QuickBooks to NetSuite, integrating third-party Configure, Price, Quote (CPQ) systems and customizing modules to meet client needs.
- Oversaw NetSuite implementations and support for two Equity Investment companies in Silicon Valley.

2. Pneumatic Scale Angelus (Barry Wehmiller) (2009 – 2011):

- Led the system conversion from Avante to Infor (MAPICS XA), managed all IT activities, and provided ongoing IT support post-implementation.

3. Software Alliance Inc. (2008 – 2009):

- Managed ERP (BPCS LX) project implementations, utilizing Six Sigma methodologies, and served as Release Manager for AS/400 production systems.

4. Dole Food Company (2005 – 2008):

- Directed SDLC project implementations, managed multi-million-dollar acquisition projects, and coordinated GCC, SOX, and internal audit activities.

5. CSB Systems Inc. (2004 – 2005):

Gerald (Gee) Corder

- Oversaw Microsoft Navision project implementations, managed budgets, provided training, and performed software configurations.
6. **Nexgen Software Inc. (1996 – 2004):**
- Led BPCS and PRMS project implementations, provided BPCS help desk support, and managed the ERP MAPICS to BPCS 4.0 conversion for Abbott Electronics.
7. **Packard Bell (NEC), Inc. (1990 – 1996):**
- Managed financial and operational functions, developed management reports, and coordinated corporate-wide ERP solution projects.
